

STOP ALL THIS HATE

Why? Why do Mexicans hate blacks? I can't pose the question "why do blacks hate Mexicans cause I dont". I can't speak for all blacks, but I will speak from me. This hate is not natural, it's taught. It seem to be more of a family tradition within the Mexican family to dislike blacks, and naturally refer to blacks as mayates, or niggers and this is not something I'm making up, but something that I've actually heard from several Mexican friends of mines. DAM, why am I even putting myself on blast to even write about this shit? I guess cause I care and I want this shit to stop. I ask myself why do Mexicans trip on blacks so much when we share so much in common. We are not in competition in no way shape or form, and we both come from a culture that shares a history of wearing Dikies, Chucks, White Tshirts, Low Riders, Pit Bulls, we love thick woman and most of all, hard working people! Wow, with all this in common, would this make us jealous of each other or competitive towards each other, or should this bring us together and allow us to interact and communicate and share ideas? I wish it would bring us together. I'm gonna be honest and I'm MAN enough to say it and some will disagree, but from experience and from talking to some of my Mexican homies, they have told me it bugs the fuck out of them to see their Sisters, Cousins, or even their Moms dating a black guy! I ask why? Why, why, why is this an issue? Is it simply because he's black? Times have changed and dating outside ones race & culture is something that cannot be controlled anymore. The more you try t hold anyone back from feeding their curiosity, the more you push them towards it. You know its true! Man when I look at this simple shit, it really disappoints me to think that the major reason Mexicans trip on Blacks is because of "females". Yes, it's a true fact, that most black men like a phat ass juicy booty, and in the Mexican culture, females are packing some junk in their trunks, so brothas tend to gravitate towards them and on the flip side, (some) Mexican chicks have a liking for brothas. Whats wrong with that? NOTHING! Now here is something that is true fact from my Mexican homie. This dude fucking loves black chicks! He says that a lot of Mexican guys like black chicks but they don't step to them because they feel a little intimidated and in no way could they bring a black chick home or be seen dating a black chick due to the negative response they would get from their family and friends. He says fucking a black chick is like a dream for a lot of Mexican guys. He agrees that some Mexican chicks have a nice ass, but he says most all black chicks have a phat ass and he wishes the racial tension wasn't there, but it is and it's something he has chosen to say fuck it and made it clear to his family years ago that he's attracted to black chicks and that's his choice. It's a trip to hear this friend of mine speak on this because honestly when you meet him, you wouldn't think he talked to black chicks. I say this because if you can understand what I'm saying, he dosent dress black to "attract black chicks", and he doesn't "talk black". He dresses like a mexican,

talks like a mexican, meaning hes not trying to be no one outside of being himself and I respect him for that. Let me break the ice and be the first person in the world to give all Mexican men the green light to step to black woman and get your mack on! Black woman would love to hear from you, and you have nothing to be hesitant about when stepping to them. Just be honest and step to them the same way you would step to any woman, we are all human. We all know, BLACXICAN babies are so cute! (that's the way females say it)

So please EVERYONE, listen to me and follow my lead and understand that 'IT'S NEVER TOO LATE TO DO RIGHT'.

It's 2007 and times have changed. Stop the hate and let's be friends.

Mexicans & Blacks Unite in 2007.

I MADE THE FIRST MOVE, NOW IT'S YOUR TURN.

Much respect,
